Hold Your Frontline With hrPad

When the frontline crumbles, business suffers. Utilizing cutting-edge GenAI, we empower your business to effectively nurture and expand your frontline operations. Our solution tackles critical challenges leading to employee turnover, including system exploitation, toxic workplace culture, staff shortages, and operational disruptions.

✓ Your punch has been saved successfully.

Time Capture for Compliance & Fair Pay

Ensure employees are getting paid for their actual work - **capture time and labor information** according to your labor compliance or union contracts.

Do we get tuition benefits?

100% after your 1st year work anniversary

Reduce Stress - 24/7 AI Assistant

Ensure your frontline staff have easy access to information. With the hrPad **AI assistant**, they can access and find any policy data, submit requests, or seek assistance 24/7.

On a scale of 1 to 5, how much do you like your job?

⭐1 ⭐2 ⭐3 ⭐4 ☆5

Improve Retention

Utilize personalized **surveys** to collect valuable insights for job satisfaction, employee well-being, and more for continuous improvement.

Hello! Thank you for reaching out. Could you please provide me with your full name, address, and email address?

Recruit Through Existing Employees

hrPad allows existing employees to send active open positions to their friends and family networks. The entire recruitment process is done through an AI-driven **text-to-apply** process.
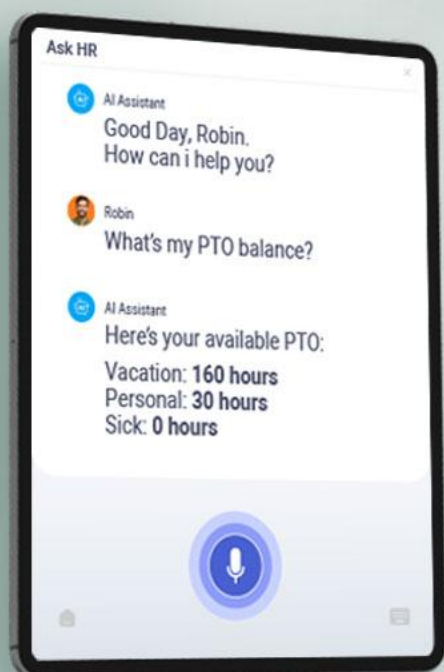

Boost Employee Referrals and Recruitment

hrPad streamlines recruitment by enabling employees to refer candidates, reducing the time to hire. Employees can share active job openings with friends and family. The AI-driven **Text-to-Apply** method used by hrPad also simplifies job applications for smoother hiring. By replacing lengthy forms with a conversational experience, hrPad creates a frictionless journey for candidates and HR teams. hrPad transforms recruitment, ensures efficiency, improves engagement, and reduces HR stress.

24/7 AI Assistant to Support Employees

hrPad boosts the employee experience by offering a seamless self-service solution through its AI assistant. Employees can request time off, access schedules, and check accruals via the AI assistant. The solution can also provide personalized and accurate responses to employee queries and process requests round-the-clock, helping to reduce the HR burden and improve employee engagement.

Ask HR

AI Assistant
Good Day, Robin.
How can i help you?

Robin
What's my PTO balance?

AI Assistant
Here's your available PTO:

Vacation: **160 hours**
Personal: **30 hours**
Sick: **0 hours**
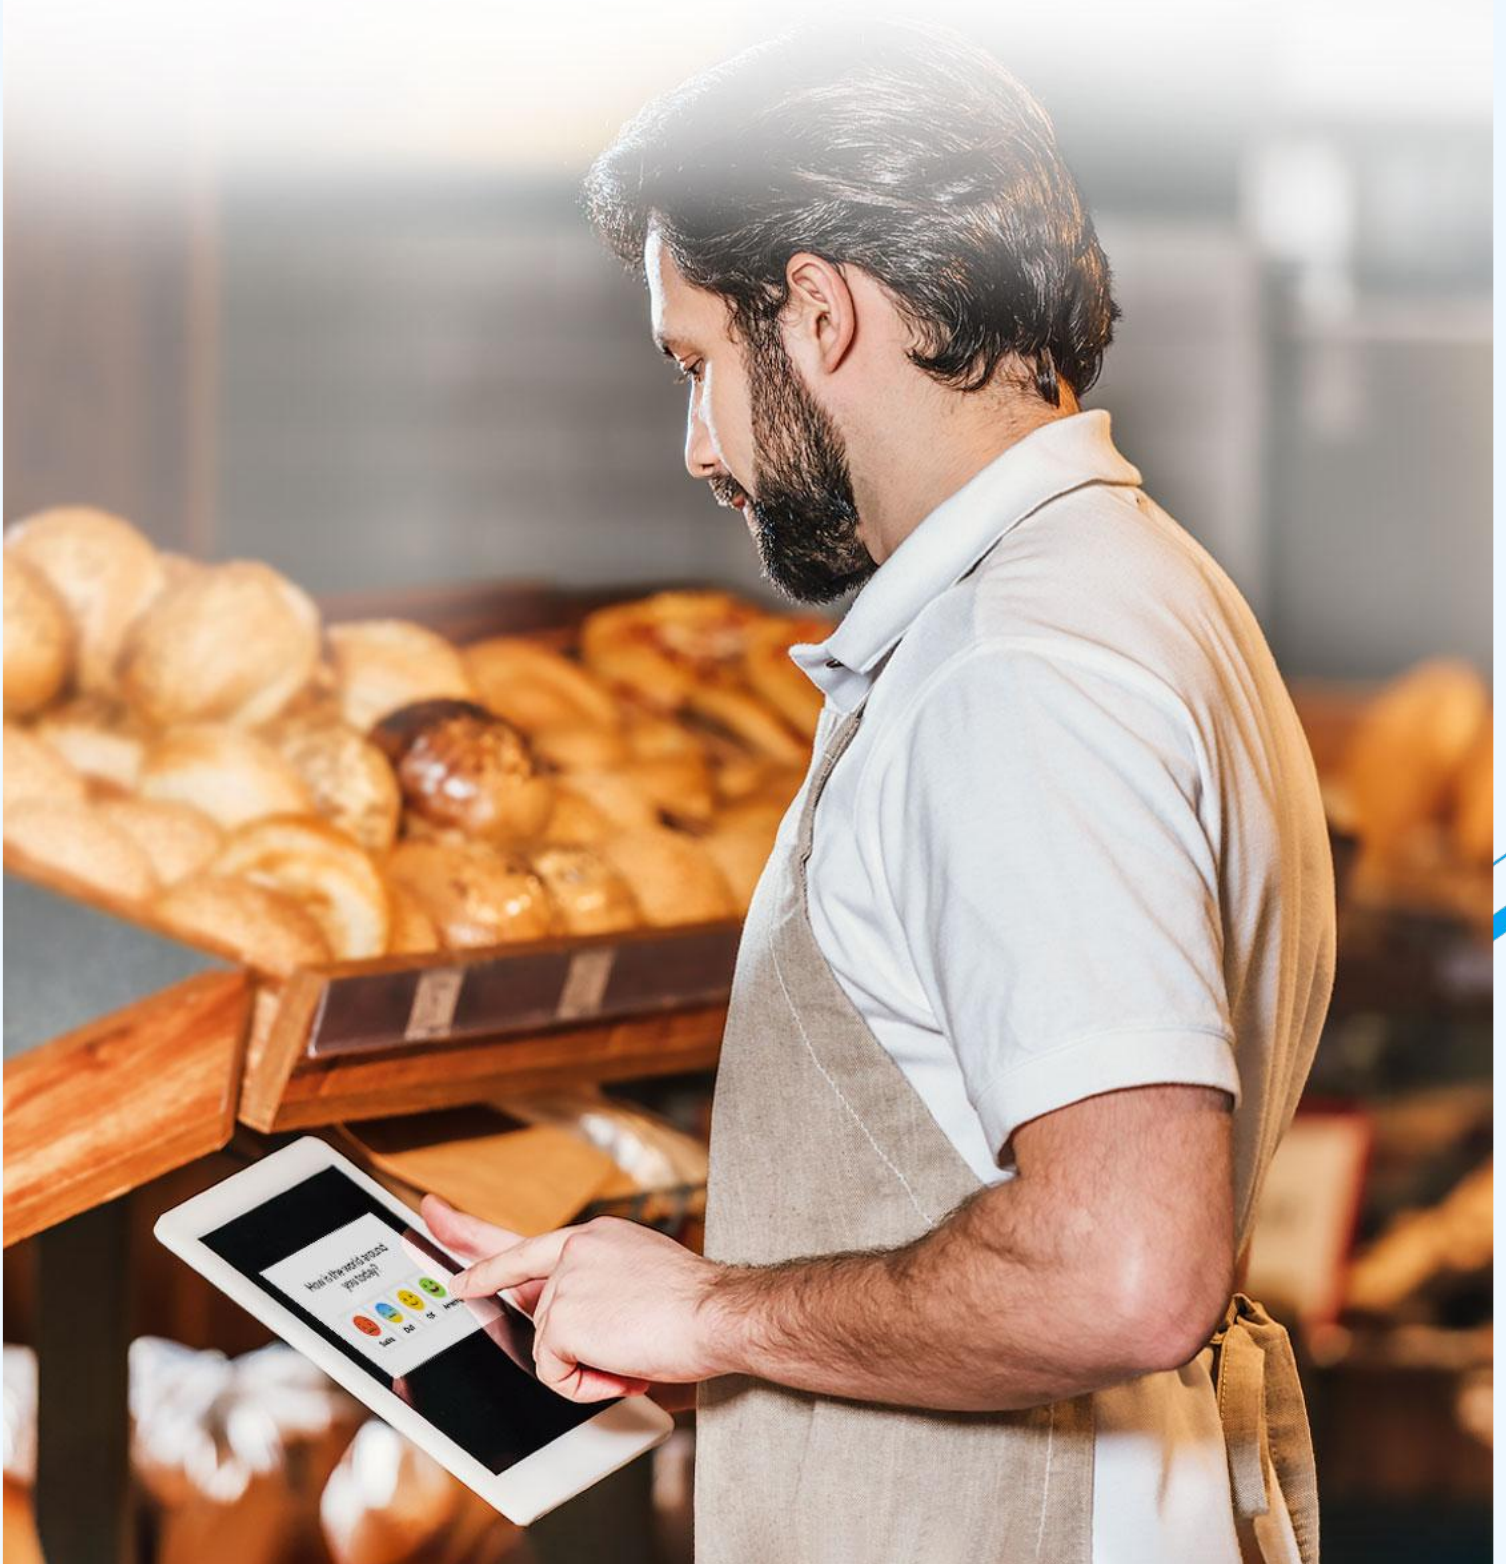

Time Capture for Ensuring Compliance and Fair Pay

Knowing who submits time data is vital for security, compliance, and payroll. hrPad can be configured with facial biometrics to ensure appropriate employees are present at the job site, mitigating legal risks for businesses and promoting transparency and equity in compensation by adhering to labor laws and union agreements.

Identification Options: Face   QR/Bar Code   Pin Code

Conduct Surveys and Capture Custom Data

hrPad helps integrate surveys into employee clock-in and clock-out routines. HR teams can set up custom questions or use AI to generate questions automatically to gauge anything - from job satisfaction to employee well-being. It can also be used for attestations, asking employees questions during clock-outs to ensure compliance. This flexibility aids in capturing essential employee data, enabling a deeper understanding of employee sentiment, streamlined feedback collection, and ensured compliance.
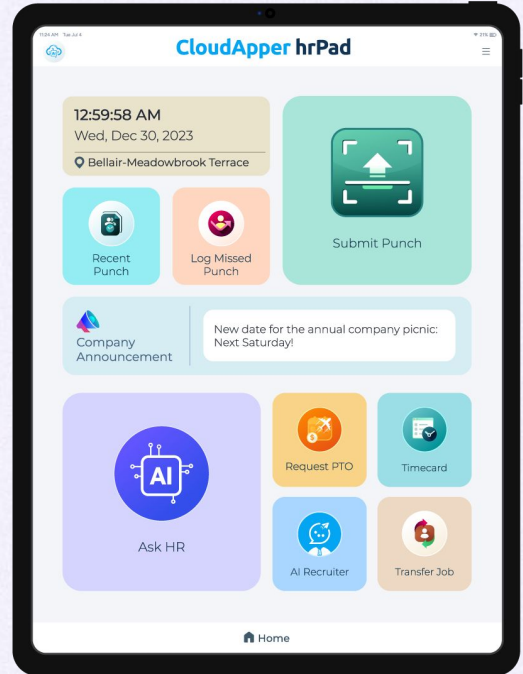

Why CloudApper AI?

CloudApper AI's compatibility with any third-party system and device independence provide unprecedented flexibility and eliminate vendor lock-ins, allowing HR teams to adopt, integrate, and leverage AI without constraints.

Many companies are using hrPad to:

- Capture Employee Time Data
- Simplify Recruitment
- Conduct Surveys
- Provide Instant HR Support
